- Perfect for edging paths, driveways, gardens, lawns & tree surrounds
- Made from 100% recycled plastic destined for landfill
- Will not rot, crack, split or rust – splinter free!
- Strong and durable - long lifespan
- Waterproof and termite proof
- UV stabilised and maintenance free
- Non-toxic and chemical free - unlike CCA treated timber
- Suitable for swampy, acidic, alkaline and saline soils
- May be cut, screwed, nailed or drilled like timber
- Ideal for seaside, rural and urban environments
- Made from recycled plastics
- Australian made & owned
- Easy to handle & install
- Sustainable and recyclable at end of life
- Intended for non-structural use only
